Reference Circular 730

Notify Foreign Office that pursuant to Proclamation of President of

October 23 Secretary Defense is issuing notice to mariners along following

lines covering procedure to be used for surfacing and identification of

submarines when in contact with US quarantine forces in the general vicinity

of Cuba. "US forces coming in contact with unidentified submerged submarines

will make following signals to inform submarine that he may surface in order

to identify himself: quarantine forces will drop four or five harmless

explosive sound signals which may be accompanied by international code signal

"IDKCA" meaning 'rise to surface'. This sonar signal is normally made on

underwater communications equipment in the 8 kc frequency range. Submerged

submarines, on hearing this signal, should surface on easterly course.

Signals and procedures employed are harmless."

Other Governments being similarly informed.

Embassy LONDON: In order to cover all eventualities request Foreign Office

pass above information to Chinese Communist authorities.
